Solid Prosperity With Peace

The return of peace has placed the business of this nation, and the whole world, on a solid prosperity foundation—THIS makes FARMING just now a great and profitable business. The outlook is, that the farming business will continue growing better and more profitable, as the whole world needs greatly increased quantities of all kinds of farm products, hence the prospect for the farmer was never better.

We desire to add further to the prosperity of the farmers in Jackson county by helping them save some of the high cost of labor. This we can do by supplying them with the very best farm implements, such as Disc Harrows, Steel Land Rollers, Riding, Walking and Gee Whiz Cultivators, Corn Planters with Pea or Fertilizer attachment, Oliver Plows and Double Shovels, Mowers, Rakes, Wagons, Wire Fence, Etc.

We carry the leading brands, and are prepared to serve the farmers to their advantage. We accept Liberty Bonds, or good note with reasonable dating.

Yours for Prosperity and Everlasting Peace,

CONCLUDING ARTICLE FROM

JIM DRAPER--SEE GENOA IN COMPANY WITH American Girl.

(continued from 1st page)
are taken in with it, as a rule. It is nearing Christmas now, and most of them will regret that they have spent so much money so soon. They will probably keep the Collosion until we are two or three weeks at sea. when, becoming thirsty, they will drink it, for as it is decidedly alcoholic, it is first rate foundation for a jag, in the absence of something better. He wont drink it as long as he can get shellac, and he wont drink shellac if there is anything else aboard that will make him drunk.

We shall be here, probably, two month, and will have plenty of time to buy anything we want. You can price anything at half a dozen different shops and the variation in prices is astounding. It seems that their idea is to get all they can out of an article. They don't expect you to pay the list price of anything, unless they take you for a fool, and it is customary to beat them down. Personally, I have an aversion to jewing anyone, and it isn't easy for me to adapt myself to it. However, I think that by the time I leave here I'll be as good as the next one. The best way to shop is to get acquainted with a native, and have him or her to buy your things for you.

I have written four people tonight and tried to tell all of them something different. It has been a job, too. I am enclos-

ing five or six letters (copies) to the home folks, from which I hope you will get an idea of how I am getting on here. I am fat and "sassy" and enjoying every day of this. Hope you have had a merry Christmas, and that this finds all well.

Affectionately,
Jim.

Note—This is the concluding article from the pen of Jim Draper, a former Gainesboro boy, who is serving on the U. S. S. Quincy and who has been at Genoa, Italy for two months. These articles have running several weeks. We hope to have more of his articles for publication sometime in the near future.—Ed.

WHY SHOULD WE HAVE A STOCK LAW IN JACK- SON COUNTY?

(continued from page 1)

law. The time is coming when we will have a stock law, why not now, while everything is so high, while we are paying a good road tax, and besides, just closed an expensive war.

The stock law is not so affective to those who live in the parts of the county where there is much timbered land. I noticed last fall, while visiting schools, stock running at large in those parts of the county where there is timbered land. I noticed on one trip, just beyond Burrstown, fourteen head of cattle along the public road, budding the bushes, several were milk cows, three of them had on bells, which convinced me they were hunters, and caried to their homes of evenings to be milked. I suppose goodwill and the best of feelings prevail in that community. So if those of you, who live in the flat woods, or timbered lands of the county, get along peaceably, with or without a stock law, let those of us who live on the creeks and rivers, and need a stock law so much, have it, and we will come to you in time of need.

If I did not own an acre of land, I would be for a stock law, because it is the best for the traveling public, and best for those who produce the main resources of the county. When a man gets his pasture sufficiently fenced, and he can do it with much less expense, than he can fence the land he cultivates, he will be highly in favor of a stock law. All we need, is to become habituated to it, and decide we are not being treated wrong, by a stock law.

Most respectfully,
W. L. Dixon.

Nellie Myers Fox.

On the morning of January 27, the death angel visited the home of Noah W. Fox on Hall's Lane, Davidson county, and claimed for his victim, Nellie, the loving and devoted wife, of Noah's.

Nellie is the daughter of Thomas and Rebecca Myers, of Gallatin, Tenn. She was born May 15, 1883, in Jackson county, and afterwards moved to Gallatin with her parents. There she met Noah, and on July 11, 1917, they married. They were very devoted to each other, and as husband and wife were very happy. One daughter, Rebecca Rash, four years old, has blessed and brightened their home.

Nellie was delicate, but notwithstanding this, her death was a great shock to her many relatives and friends. She was taken with Influenza Friday, Jan. 24, complications at once set up, and Tuesday, Jan. 27 she died, being sick only four days.

Funeral service was held at the residence Wednesday, Jan. 28, at 11 a. m., conducted by Bro. Leo Boles, who said many good things about the noble life of Nellie, and the Christian hope. She was a member of the Church of Christ. Interment was made in the Green Hill cemetery on the Gallatin pike, attended by a number of relatives and friends.

Indeed a noble life has ended, but its influence will continue to brighten and bless the world, her spirit will dwell with the heavenly spirits for all eternity.

John W. Fox.
